

Aerospace Procurement Manager

Martin UAV is actively building a team of world-class employees to help assist in developing revolutionary unmanned aircraft systems technologies.

We are currently seeking an experienced Aerospace Procurement Manager to join the team in daily management and efficient operation of the purchasing, repair vendor management and logistics functions for a VTOL UAV. The successful candidate will work closely with our lead engineer and our production supervisor in a multidisciplinary avionics and aerospace environment. The ideal candidate should be able to contribute broadly but will be primarily responsible for all supply chain functions in support of the business.

Job Function

- Sources, negotiates and purchases machinery, equipment, tools, raw material, packaging materials, parts, services, and/or supplies necessary for operation of an organization
- Support internal leadership and management on purchasing policy and techniques
- Compiles and analyzes statistical data to determine feasibility of buying products and to establish price objectives
- Negotiates with suppliers and analyzes suppliers operations to determine factors that affect prices and to determine lowest cost consistent with quality, reliability, and ability to meet required schedules
- Analyzes inventory and identify areas of opportunity to optimize all levels of material within the facility
- Performs other related duties as required

Required

- Ability to deliver great results in short amount of time with minimal outside direction.
- Procurement experience at tech manufacturing and/or aero manufacturing company
- Deltek/Costpoint experience is a MUST

Desired

- Lives in the DFW area or the Bay area

Qualifications

- Bachelor and/or 4-8 years of relevant experience required

We are located in Santa Clara or Rohnert Park, CA (headquarters is in Plano, TX) and offer a comprehensive benefits package including medical, dental, vision and life insurance, 20 PTO days and a 401(k) plan with company matching.
